[North>]

Large Corn

[Plot is 198 m (x) by 192 m (y)]

(C) = Collar with no rhizotron tube.

Not to scale! Drawn by eye! Not measured! Beware! Offer not valid in 2010!

[North>]

Large Miscanthus

[Plot is 198 m (x) by 192 m (y)]

Red points have paired root exclosures, Coordinates represent distance from closest plot edge (Ex: the distance listed for points 1, 2, and 3 is that between the point and the E (x value) and the N (y value) edge).

[North>]

Large Prairie

[Plot is 198 m (x) by 192 m (y)]

Red points have paired root enclosures, Coordinates represent distance from closest plot edge (Ex: the distance listed for points 1, 2, and 3 is that between the point and the E (x value) and the N (y value) edge).
